

AN UNFORGETTABLE EXPERIENCE

Our school told us that we could host a 16 year's African boy for 2 weeks from an ONG called "Little musicians of the world"

When my brother heard that, he tried to convince my mother to host the boy.

My mother thought that it could be a good experience to all the family.

In Africa he lives in Malawi, in the south-east of the country and they are very poor because they use candles in his house.

When he came to our house he said that all the things were very good.

He came with a shirt and a bow tie.

The thing that he liked most was the Fifa videogame. When he learned to play he was very good.

During the days he goes to different schools to learn music or to show them the music they can play.

The name of the boy was Maxwell and he played the traditional drums of Malawi.

To Spain come about eight girls, two boys and three teachers,

One of the teachers teach in Malawi different subjects to a class of three-hundred boys and girls.

During the week-ends we went to visit: Tibidabo, Barcelona, Sagrada Familia, Camp Nou, the beach, McDonalds,...

We communicated with him in English and he was very happy and educated.

In Malawi what they most eat is a food called "nzima", it's a corn pure and eat it for breakfast, lunch and dinner.

I write this writing so that you can see our unforgettable experience of solidarity.
